

Concerned that your team is not on the same page about climate-related topics relevant to your business and customers? Is that preventing you from moving forward with programs, products, and even publicly discussing your position? Need help better understanding definitions around things like ESG? This benefit will get your team in the climate conversation!

ONE-DAY CLIMATE STRATEGY SESSION

What's Included?

- Pre-interviews with key team members (up to five included)
- Blind climate attitudes and knowledge gap survey conducted within team
- Aggregated results presented during session
- One-day strategy session held in the Indianapolis area
- Can be hosted at your location or as an off site; catering and venue rental not included
- Post-session recommendations and follow up actions prepared with post debrief call for leaders

Details

- Complimentary for Founders
- Members can take advantage of this benefit once a year
- Fifty percent off for Stakeholders (cost of \$5,000)
- Available for qualified IN-CLIMATE prospect members at \$10,000
- Purchase the climate strategy package and then apply the fee to your selected IN-CLIMATE membership

Navigating today's emerging pressures from investors, customers, and stakeholders means developing a strategy to address climate-related topics at a high level is now not an option. Yet, if you're like many IN-CLIMATE members, you still need to build consensus internally. With this "new benefit" we gather your work team, leadership committee, or board to discuss climate and sustainability-related topics to begin determining your internal and forward-facing positions on climate, carbon markets, topics such as Scope 1, 2, 3, ESG, green finance, and more. This day-long facilitated retreat includes pre- and post-interviews, blind team surveys with results presented in aggregate, and the strategic planning session.
